

Jamie and Dana

I wanted to say thank you, from the bottom of my heart, for everything that you did for me and my daughter this past Tuesday. From the medicine, the food, cloths, "presents", but ~~§~~ also the kind ears and hugs. The two of you went far beyond what you needed to do and I wanted to thank you, and to let you know how grateful I am. You are extremely busy women, I am sure, and you took time out of your day, not just to listen, but to help. When I get back on my feet, I will give back, I promise! Thank you, again, for everything! You are wonderful women, with warm hearts!
