Love, Inc.

2017 Mission In Action

MESSAGE FROM THE LOVE, INC. BOARD PRESIDENT

The Mission of Southern Lakes Area, Love, Inc. is demonstrated by our devoted staff, volunteers and donors. Statistics merely reflect numbers but do not show the true way in which lives are touched individually and in community wide emergencies. During the floods of 2017, Love, Inc. provided for the basic and ongoing needs of our neighbors in Western Racine County. Long after the initial influx of aide, Love, Inc. remained to assist those most affected by this devastating event. Love, Inc. also experienced flood damage and it caused us to assess our facilities and take action. The new Love, Inc. Home Store and Donation Center opened in January 2018. These facilities will help us to move forward into the future. As it was with its inception in 1984, Love, Inc. is supported solely by the community and all resources go back to serving the community. With ongoing community support, Love, Inc. will continue to go forth to provide assistance for those facing daily life challenges.

Thank you for your support of our Mission.

Diane Huck, President

MISSION MOMENTUM

Growing to Serve

Love, Inc. holds a special place in Western Racine County. In addition to its operations of making sure individuals have dignified access to a community network of services and resources in their time of need, our organization provides a place to donate and re-sell items to assist those needing food, clothing and guidance.

Plans and actions over the past year have set the groundwork for expanding outreach connections, growing partnerships with community businesses, and to provide more skill building opportunities for clients and volunteers.

Southern Lakes Area Love, Inc. relies on individual and business donations to support its services, staff and facilities. Thank you for helping us grow to serve.

Mission

A Community Network Helping Our Neighbors in Need

Vision

A community where every individual has reached their full potential by developing their strengths and increasing their self-sufficiency
